September Talks

September 5th: Robin Goff, Licensed Unity Teacher

"Taking My Seat at the Fire"

Indigenous people traditionally allowed the eldest people of the tribe take the seats closest to the fire out of respect. There they would tell teaching stories for the younger ones. In a culture where there are seldom council fires, we have lost the role of the elders as wisdom keepers. In our rapidly changing world, that role is needed more than ever. How do we claim it? Why does it matter?

Special Music: CS Luxem

September 12th: Rev. Steffany Barton

"Mining Diamonds"

In challenging and changing times, feeling light can seem difficult at best. Join Rev. Steffany as she shares lessons from nature blended with principles from Unity to help you shine your light in the world.

September Talks

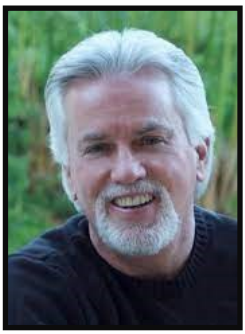
September 19th: Jay Pryor

"People Are Good"

Second Basic Unity Principle: "God is Spirit. Human beings have a spark of divinity within them, the Christ spirit within. Their very essence is of God, and therefore they are inherently good also. God is neither male nor female, but is Spirit and resides in everything (people, animals, trees, soil, and even the air we breathe). God is present in all people, not just some. Jesus Christ obtained the fullest expression of God. He is the example, not the exception."

Special Music: Harmony Lovell

September 26th: Dr. Dennis Merritt-Jones



"The Only Way Out, Is In"

This talk focuses on the concept that, irrespective of what we believe imprisons us in our daily lives, consciousness is the only key to our true freedom. Understanding the difference between Perspective and Perception and the role they both play in determining what shapes your consciousness is the lesson. It's not just "what" you see - it's "how" you see it; the filter of your consciousness solely defines your reality. Are you ready to set yourself free? The only way out truly is in.

Special Music: Bradford Taylor
