May Talks

May 4th: Beki Howlett "What's Prayer Got to Do With It?"

Prayer is often misunderstood, seen as rote recitation or only reserved for the deeply religious. But what if we reimagine prayer as an active dialogue with God? Prayer works hand-in-hand with meditation to cultivate a conscious connection with all that is. Learn to harness the power of affirmative prayer to transform our lives and align with the spiritual truth of our Divinity.

Special Music: David Singley

May 11th: Diane Silver "A Mother's Heart"

As we celebrate Mother's Day and honor those who nurture us with love, we explore how to apply a mother's heart and a mother's approach to our own lives.

Special Music: UOL Choir

May 18th: Rev. Jen Hutchins

"It's a Miracle: Revisiting Jesus' Teaching"

How can a 2,000-year-old story be relevant to your life today? Jesus was a powerful influencer whose miracle mind set has endured the ages. Together we will explore how these teachings can help us overcome obstacles and create positive change in our lives.

Special Music: LILA

May Talks

May 25th: Kelley Hunt Memorial Day

As we celebrate and commemorate those who lost their lives in service of our country, we'll explore some of the spiritual underpinnings of the Memorial Day holiday, things we are called upon to remember and practice.

Special Music: Kelley Hunt

Metaphysical Explorations at Unity

The term Metaphysical has many meanings. Essentially, it refers to that which is hidden and beyond ordinary perceptions. Terms such as the great mystery, mystical union, and esoteric knowledge all relate to metaphysics. Questions such as "What is God? How was the universe created? Who and what am I? Is there an afterlife?" and so forth are metaphysical in nature. The format will include the sharing of information and open discussion with an emphasis on interaction.

Metaphysical Explorations at Unity will meet once a month on the second Sunday right after the potluck at 12:45 to 1:45 pm in the sanctuary.

Led by Phil Roger who has explored both Eastern and Western metaphysics for over 50 years and still maintains a beginner's mind.
